1. PREFACE

Unication would like to thank you for choosing the E3 as your communication tool. This user manual will provide you the necessary information to get the optimum performance from your pager. The E3 is a very versatile product and has the ability to satisfy most communication requirements. We sincerely hope our all new E3 product exceeds your expectations.

This document is subject to changes without notice. The latest electronic version of the user manual can be downloaded from Unication’s website: www.unication.com
### 2-1. PACKAGES-BASIC AND GSM

E3 standard package contains the following items:

<table>
<thead>
<tr>
<th>ITEMS</th>
<th>E3 Pager</th>
<th>Holster</th>
<th>Li Battery (GSM Model Only)</th>
</tr>
</thead>
<tbody>
<tr>
<td>![E3 Pager]</td>
<td>![Holster]</td>
<td><img src="https://via.placeholder.com/150" alt="Li Battery" /></td>
<td></td>
</tr>
</tbody>
</table>

### 2-2. OPTIONAL ITEMS

The following are optional items:

<table>
<thead>
<tr>
<th>ITEMS</th>
<th>Mini USB</th>
<th>External Antenna</th>
<th>Ni-HN Rechargeable Battery</th>
<th>Charger</th>
<th>AC Power Adapter</th>
</tr>
</thead>
<tbody>
<tr>
<td>![Mini USB]</td>
<td>![External Antenna]</td>
<td><img src="https://via.placeholder.com/50" alt="Ni-HN Battery" /></td>
<td><img src="https://via.placeholder.com/150" alt="Charger" /></td>
<td><img src="https://via.placeholder.com/150" alt="AC Power Adapter" /></td>
<td></td>
</tr>
</tbody>
</table>
3. INSTALLATION

3-1. AA BATTERY INSTALLATION

The E3 is designed to operate with a single AA-size Ni-MH rechargeable battery or an alkaline battery (LR6 is recommended). See the diagram below for the battery door location.

To insert or replace the battery, please remove battery door. Insert one AA battery (Alkaline or rechargeable battery) into the battery compartment.
※Caution: Observe battery polarity.
a. Loosen the screw by using a coin.
b. Using a coin to slide the battery door toward the outer edge.
c. Lift the battery door away from the housing and remove it.
d. Insert the battery into the battery compartment, taking note of the positive (+) and negative (-) markings on the battery and the pager housing.

※ Caution:
For the initial use, please keep the full charged battery stay in the pager for more than 72 hours to fully charge the backup battery for message retention.
3-2. SIM CARD INSTALLATION (GSM MODEL)

Before using the E3 GSM model, you have to install a GSM SIM card, which is provided by your network service agent. Please follow the below steps to install the SIM card.

a. Loosen the 4 screws which are on the pager rear housing.
b. Remove the pager rear housing.
c. Lift the SIM card holder.
d. Insert the GSM SIM card then place the SIM card holder back.
e. Slide the SIM card holder forward to lock the SIM card.
3-3. LI BATTERY INSTALLATION (GSM MODEL)
After installing the GSM SIM card, please follow the below steps to install the Li battery.
a. Plug the battery connector into the battery compartment.
b. Place the Li battery in the battery compartment.
c. Place the rear housing back.
d. Screw the screws tightly.
4. PAGER INTRODUCTION

4-1. KEY INTRODUCTION
The E3 is available in 2 models. Please verify your model for the appropriate key button functionality.
<table>
<thead>
<tr>

</tbody>
</table>
|   | **<6>UP KEY**  
1. Press ▲ to move the cursor up.  
2. When reading messages, press ▲ to move to the last message. |   |
|   | **<7>DOWN KEY**  
1. Press ▼ to move the cursor down.  
2. When reading messages, press ▼ to move to the next message. |   |
|   | **<8>LEFT KEY**  
Press ◀ to move the cursor on TOOL BAR left. |   |
|   | **<9>RIGHT KEY**  
Press ▶ to move the cursor on TOOL BAR right. |   |
4-2. DISPLAY INTRO
The E3 display is separated into 3 areas:

4-2-1. STATUS BAR
STATUS BAR provides the basic pager information, and indicates the following features status:
a. Battery Capacity Indication.
b. Numbers of Unread Messages
c. ON/OFF DUTY Status
d. Alert Mode
e. Message Alarm Status
f. GSM Signal Strength (GSM MODEL ONLY)
g. RF Signal Strength
4-2-2. MAIN AREA
In stand by mode, MAIN AREA displays the following information:
a. Profile name.
b. Real Date & Time.
c. Clock Alarm status.

4-2-3. TOOL BAR
The Tool bar displays different features with different function screens.

You may move the cursor to each feature. A "Feature Description" will be displayed on the selected feature that describes its functionality.
4-3. ICON INTRODUCTION

5. TURNING ON THE PAGER

There are two ways to turn on your pager:

➢ 5-1. MANUAL SWITCH ON
   a. When the E3 is off, press "POWER KEY" for 2 seconds.
   b. The E3 will turn on and generate a power-on alert and vibration.
   c. After not operating the pager for seconds, the E3 will process to Standby mode. The activated profile will be displayed on the screen.

➢ 5-2. BATTERY POWER ON
   a. The E3 turns on automatically when inserting a battery.
6. SELF TEST

6-1. SELF TEST
When the E3 powers on, it automatically reverts to the “SELF TEST” to determine if the pager is working normally.

a. The testing status and result will be displayed on the screen.

b. If any error is found, a warning will display on the pager screen. Please contact a Unication representative agent for more information.
TODAY is a folder which stores all the current day’s received messages.

7-1. ENTERING TODAY
a. Press MENU KEY, the main menu will display.
b. Press ▲▼ and OK KEY to move and enter today.

※ In the TODAY screen, there are 3 sub-folders for you to check:
   (1) TODAY UNREAD MESSAGE
   (2) TODAY MESSAGE
   (3) MESSAGE ALARM
7-2. UNREAD MESSAGE

a. After entering the TODAY screen, the cursor will stay on "UNREAD MESSAGE". Press OK KEY to enter "UNREAD MESSAGE". All the unread messages received today will be listed in chronological order.

※ The Message List will be displayed with its folder name, source name and message preview.
※ The tool bar features are the same with "READ MESSAGE".
7-3. TODAY MESSAGE

a. In the "TODAY" screen, press ▲▼ then OK KEY to select and enter "TODAY MESSAGE".

All the messages that received today will be saved in this folder.

※ The MESSAGE LIST will be displayed with its folder name, source name and message preview.
※ The tool bar features are all the same with "READ MESSAGE".
7-4. MESSAGE ALARM

The message alarm that will be activated on the day the user is operating the pager is saved in this folder.

a. In the "TODAY" screen, press ▲▼ then OK KEY to select and enter "MESSAGE ALARM".

※ All the message-alarms that will be activated today are listed in chronological order.

b. Press ▲▼ then OK KEY to select and enter the alarm that you want to look up.

7-4-1. MESSAGE ALARM

If a MESSAGE ALARM is selected, press OK to display the selected message alarm. The message content will be displayed on the screen. The TOOL BAR features are the same as "MESSAGE ALARM".
8. MESSAGE

8-1. READ MESSAGE
a. When the E3 receives messages, the pager will generate a message alert as an indication to remind the pager user that there is a new message received.

b. If “Auto Display” is enabled in the PPS, the received message content will be displayed on the LCD automatically.

c. Read the displayed new message by pressing the OK key or read key. If there is no any key pressed within a default period, the message will be stored as an unread message. The unread message alert will be generated to remind the pager users.

d. If the “Auto Display” is enabled, the pager generates message alert when it receives a new message. The messages will be stored in the assigned folder. There are 3 ways to read the received messages:
8-1-1. READ MESSAGES BY OK KEY
a. Press OK key to display the latest message.
b. If the message is more than one page, press OK to scroll through the pages.
c. Press ▲▼ to display the last or next message.

8-1-2. READ MESSAGES BY READ KEY
a. If there are unread messages, press the READ KEY to read the unread message directly.
b. If there is no unread messages, you can also press the READ KEY to display the folder list.
8-1-3. READ MESSAGES FROM MESSAGE BOX
a. Press MENU KEY to display the MAIN MENU list. The cursor will stay on MESSAGE BOX.
b. Please press OK KEY to enter MESSAGE BOX. All the programmed folders will display on the screen.
c. Please press ▲▼ to select the desired folder.

※ If there are unread messages, an UNREAD FOLDER will be on the top of the folder list.
d. Press OK KEY to enter the selected folder. All the received messages that are saved in this folder will be listed in chronological order.

※ The MESSAGE LIST will display with the folder name, source name and message preview.

e. Press ▲▼ KEY then OK KEY to select and read the desired message.
8-1-4. MESSAGE PROTECT

When *Message Protect* is activated in the Pager Programming Software, the read messages are protected by pre-set password. You need to enter the password to view the MESSAGE BOX.

a. Press MENU KEY, the feature list will display, and the cursor will stay on "MESSAGE BOX".
b. Please press OK KEY to enter MESSAGE BOX.
c. "PASSWORD" screen will display.
d. Press ▲▼◄► to enter the password.
e. If the password is correct, the FOLDER LIST will display on the screen.

f. If the password is incorrect, an "ERROR WARNING" will display.

※ If the password is incorrect for 3 times, the E3 will return to stand-by mode. Please follow the same steps to read the messages.
8-2. MESSAGE ACKNOWLEDGEMENT (ONLY FOR GSM MODEL)
E3 GSM Model provides four features for the Message Confirmation:
1. RECEIVED ACK (Received Confirmation)
2. READ ACK (Read Confirmation)
3. RESPONSE ACK (Response Confirmation)
4. ACK (Confirmation) STATUS

8-2-1. RECEIVED ACK (Received Confirmation)
When a GSM Received ACK requested message is received, the pager’s GSM module will be automatically activated, a GSM signaling icon will display on the status bar, the pager will then send out a “RECEIVED ACK” automatically.
After sending out the RECEIVED ACK, an “ACK SEND SUCCESS” text will display on the LCD to indicate the “RECEIVED ACK” transmission. After the message is sent, the GSM Module will turn off and the GSM antenna icon will disappear.

8-2-2. READ ACK (Read Confirmation)

a. When a GSM Read ACK requested message is received, the pager will automatically activate GSM module when the message is read.

b. A GSM signaling icon  will display on the status bar and “READ ACK” will be sent automatically.

c. After sending out the READ ACK, a “ACK SEND SUCCESS” displays on the LCD to indicate the “READ ACK” transmission.
8-2-3. RESPONSE ACK (Response Confirmation)
When a GSM RESPONSE ACK requested message is received, the LCD will display “New ACK MESSAGE”. On the tool bar, there will be a “RESPONSE ACK” icon displays on the tool bar for you to send out the SMS confirmation.

a. Press ◀ ▶ to move the cursor to “ RESPONSE ACK”.
b. Press OK to display the “Confirmation List”.
c. The cursor will stay on the first SMS option.
d. Press ▲ ▼ to select the desired option.
e. Press OK to send the selected option.
“Sending ACK” indication will display on the LCD.
8-2-4. ACK (Confirmation) STATUS
After sending the SMS confirmation, ACK STATUS allows you to check out the acknowledgement status to see if all the acknowledgements are sent successfully.

a. In Message Screen, press ▶ to move the cursor to “ACK STATUS”.
b. Press OK to display the “ACK STATUS”. The status of sending the SMS confirmation will be displayed on the screen.
8-3. OTHER FEATURES

While reading the messages, the E3 TOOL BAR will provide you with the following features:

8-3-1. ZOOM IN/OUT

To read the messages with larger character size, you may zoom in the message.

a. Press ‹ › to move the cursor to "ZOOM IN".
b. Press OK KEY to confirm the setting. The message that you are reading will display with larger characters immediately.
c. At this moment, "ZOOM IN" feature will change to "ZOOM OUT". You may directly press OK KEY to zoom out the message. The message will display as default setting.
8-3-2. MESSAGE LOCK/UNLOCK
If the message you are reading is very important, you may lock this message to protect it.

a. Press ➩ to move the cursor to "LOCK".
b. Press OK KEY to confirm the setting.
   After locking the message, a □ icon will display.

※ When a message is locked, it is protected from deletion, unless the "lock" is removed.
8-3-3. MESSAGE ALARM
If the message you are reading is important and you need to read it again at a certain time, you can set up a message alarm. When the setting time is up, the pager will alert and remind you to read the message.

- 8-3-3-1. ACTIVATE MESSAGE ALARM
  a. On message screen, press ◀️ to move the cursor to "MESSAGE ALARM".
  b. Press OK KEY to enter " ALARM SETTING". The alarm setting screen displays, and the cursor will stay on "ACTIVATE ALARM".
  c. Press ▲▼ to switch the message alarm "ON" or "OFF" to enable or disable the MESSAGE ALARM.
8-3-3-2. ALARM TIME SETTING
a. Press ◀︎ to move the cursor to "HOUR" then press ▲▼ to switch the figures.
b. Press ◀︎ to move the cursor to " TEN’S MINUTE" then press ▲▼ to switch the figures.
c. Press ◀︎ to move the cursor to " UNIT’S MINUTE" then press ▲▼ to switch the figures.

8-3-3-3. SAVE SETTINGS
a. After all the settings are completed, press ◀︎ to "SAVE".
b. Press OK KEY to confirm Alarm settings.
※ After the message alarm setting, this message will not be able to be deleted till the alarm setting is removed.
8-3-4. DELETE MESSAGE
While reading a message, you may delete the message.

a. Press ◄► to move the cursor to "DELETE MESSAGE".
b. Press OK KEY to delete this message.
c. A confirmation window will display on the screen. Press OK KEY to "YES" to confirm the deletion.
d. Press ◄► to "NO" then OK KEY to cancel the deletion.

※ After deleting a specific message, the next message will display on the screen. If there is no more message in the reading folder, the screen will display FOLDER LIST.
8-3-5. DELETE ALL MESSAGES
You may delete all the messages in this folder:
a. Press ▶️ to move the cursor to "DELETE ALL".
b. Press OK KEY to delete all the messages.
c. A confirmation window will display on the screen. Press the OK KEY and select "YES" to confirm the deletion.

※ There is no "DELETE ALL" feature in "NOTEBOOK" folder.
8-3-6. MOVE TO NOTEBOOK
After reading a message, if this message is important, you can move this message to NOTEBOOK FOLDER. The messages in the NOTEBOOK FOLDER will not be auto-deleted when the pager text memory size is full:

a. Press •• to move to "MOVE TO NOTEBOOK", then press OK KEY to confirm the setting. The selected message will be saved in NOTEBOOK.

8-3-7. BACK
After reading the messages, press BACK to return to Message List:

a. Press •• to move the cursor to "BACK", then press OK KEY, the screen will return to MESSAGE LIST.
9. EMERGENCY MESSAGE (GSM MODEL ONLY)

For the security purpose, The E3 GSM Model provides Emergency Message for the pager users to send out the preprogrammed emergency message to the assigned GSM number or GPRS IP address in case the pager user is in need of help.

- **9-1 TO ACTIVATE THE EMERGENCY MESSAGE**

  The function status key is a programmable key to be as a SOS button, when SOS button is enabled in the PPS, pager user can send out an emergency message via operating the pager.

  ※ The Emergency Message can only be activated when the pager has an active LCD screen i.e. standby or menu screen. To operate Emergency from ECM condition, The screen must first be made active with a short press of any key.
a. Press the SOS button for 3 seconds, a chirp alert will be generated to remind the SOS button has been pressed.
b. A confirmation will be displayed on the LCD, press ▶ to “YES” then press OK to confirm sending the emergency message.
c. When sending the emergency message is activated, “SENDING EMERGENCY MESSAGE” will be displayed on the LCD. The GSM antenna will be displayed on the status bar.
d. When the emergency message is sent, the GSM module turns off.
10. FUNCTION STATUS

When SOS button is not enabled in the PPS,  is the Function Status key allows a quick view of the features’ status. Function Status is a shortcut for you to view the status of frequently used functions and a quick approach for you to change the settings. The E3 provides 2 methods to enter FUNCTION STATUS.

10-1. ENTERING FUNCTION STATUS

10-1-1. PRESSING FUNCTION STATUS KEY TO ENTER
a. In stand by mode, you can simply press FUNCTION STATUS KEY to enter FUNCTION STATUS directly.

10-1-2. ENTERING FROM MENU
a. Press MENU KEY, the MAIN MENU will display on the screen.
b. Press ▲▼ to move to "FUNCTION STATUS".
c. Press OK KEY to enter the "FUNCTION STATUS" screen.
10-2. FUNCTION ENABLE/ DISABLE/ SETTINGS

10-2-1. ALERT MODE

a. After entering to the FUNCTION STATUS, the cursor will stay on ALERT MODE, and the current status will also be displayed.
b. Press OK KEY to switch between alert modes.
c. Current alert mode status will also be changed while switching through the alert modes.
d. There are 3 alert modes: AUDIBLE/ VIBRATION/ SILENT.
e. After an alert mode is selected, the change will be automatically saved.
f. If you would like to enter the full setting screens, please press ► to move the tool cursor to "ENTER" then press OK.

※ The full setting operations of ALERT MODE is exactly same as the operations in PAGER SETTINGS-Alert Settings.
10-2-2. ON/ OFF DUTY

a. After entering the FUNCTION STATUS, please press ▲▼ KEY to move to ON/OFF DUTY. The current status of ON/OFF Duty will also be displayed.

b. Press OK KEY to switch between ON or OFF.

c. Current duty status will also be changed while switching through the status. Only ON and OFF are in switch.

d. After a duty mode is selected, the change will be automatically saved.

e. If you would like to enter to the full setting screens, please press ▲ to move tool cursor to "ENTER" and press OK.

※ The full setting operations of ON/ OFF DUTY is exactly same as the operations in SETTINGS - ON/ OFF DUTY.
10-2-3. PROFILE

a. After entering the FUNCTION STATUS, please press ▲▼ KEY to move to PROFILE. The current PROFILE in use will also be displayed on the Profile item.

• 10-2-3-1. Operations for Single Profile:
  a. When the cursor stays on “PROFILE”, press OK KEY to switch profiles.
  b. Current receiving mode status will also be changed while switching through the profiles.
  c. The profiles to choose are based on pre-programmed settings using the Pager Programming Software.
  d. After a profile is selected, the change will be automatically saved.
e. If you would like to enter to the full setting screens, please press ► to move tool cursor to "ENTER" and press OK.

- 10-2-3-2. Operations for Multi-Profile:
  When Multi-Profile is activated, the standby mode will display with “Multi-Profile”. The Profile item listed in the Function Status will be named with “Multi-Profile”. Then Function Status is only for a quick approach to enter the “Profile” setting, but not allowed to switch the default activated Profile through OK key.
  a. If you would like to enter to the full setting screens, please press ► to move tool cursor to "ENTER" and press OK.

※ The full setting operations of PROFILE is exactly same as the operations in PAGER SETTINGS. Please refer to PAGER SETTINGS-PROFILE.
10-2-4. CLOCK ALARM (5 Alarms)
a. After entering the FUNCTION STATUS, please press ▲▼ to move to ALARM 01~05. The current status of the selected alarm will also be displayed.
b. Press OK KEY to switch ON or OFF.
c. Current status will also be changed while switching.
d. After the status is selected, the change will be automatically saved.
e. If you would like to enter to the full setting screens, please press ► to move tool cursor to "ENTER" and press OK KEY.

※ The full setting operations of Alarm is exactly the same as the operations in SETTINGS. Please refer to SETTINGS - ALARM.
11. SETTINGS

There are more features you can activate in SETTINGS.

a. Press MENU KEY, the MAIN MENU will display on the screen.
b. Press ▲▼ then OK KEY to move to SETTINGS.

➤ 11-1. PROFILE

a. After entering SETTINGS, the cursor will stay on PROFILE.
b. Press OK KEY, the PROFILE list will display.
c. Press ▲▼ to select the profile that you want to activate.

※ When “Multi-Profile” is activated, you are allowed to activate more than one Profile.
d. Press ◀▶ OK KEY to confirm the selection, a ✓ will label with the profile that you just selected.
e. Press ◀ to move to "SAVE" and press OK KEY to save the setting.

11-2. TIME & DATE

a. After entering SETTINGS, please press ▼ to move to TIME & DATE. Press OK KEY to enter TIME & DATE settings. In TIME & DATE SETTINGS, you may set up the TIME & DATE and display format of date.

11-2-1. TIME & DATE

a. Press OK KEY to enter TIME & DATE. In TIME & DATE screen, the cursor will stop on HOUR Setting.

b. Press ▲▼ to adjust the figures on "HOUR SETTING."
c. Press ▶️ to move the cursor to "MINUTE SETTING."
d. Press ▲▼ to adjust the "MINUTE SETTING."
e. Press ▶️ to move the cursor to "HOUR FORMAT SETTING."
